

MOUNT

MOUNT ROOFING AND STRUCTURES PVT LTD

DESIGN. DEVELOP. DELIVER

MOUNT From its establishment is a pioneer in manufacturing various steel products used in construction industry.

MOUNT is a well known Pre - Engineering Building (PEB) and allied roofing products manufacturing company providing the most comprehensive solution by constantly developing and improving its products and services. Our Products are manufactured using best steel procured from premium quality steel manufactures across the country and overseas to ensure we deliver the best quality products.

MR SPL has 3 manufacturing units in Bangalore and Tumkur - Karnataka. 120000 sqft Manufacturing Facility in Tumkur of Structural Steel and Roofing Products. 80,000 sqft Manufacturing facility for Sandwich Panels and Polycarbonate Sheets. 50,000 sqft Manufacturing unit in Bangalore for PUF Panels, which makes us one of the largest manufacturers of PEB and Roofing products in South India. MOUNT ROOFING AND STRUCTURES PVT LTD is India's largest PEB, PUF panels and polycarbonate sheet manufacturer. Under MR SPL we have 3 prominent brands which are very widely used in Steel building construction/roofing industry.

MOUNT is an ISO 9001- 2015 Certified company ensure that its company products & services achieve the customers quality requirements and achieve continual improvement of its performance.

Our Certification

Pre-Engineered Buildings (PEB) are a popular construction solution known for their efficiency and versatility. These structures are designed, fabricated, and assembled at the factory before being transported to the construction site for quick and cost-effective installation. PEBs are widely used for various applications, including warehouses, factories, commercial buildings, and more.

KEY FEATURES of PEBs include:

Speed of Construction

Customization

Sustainability

Cost-Efficiency

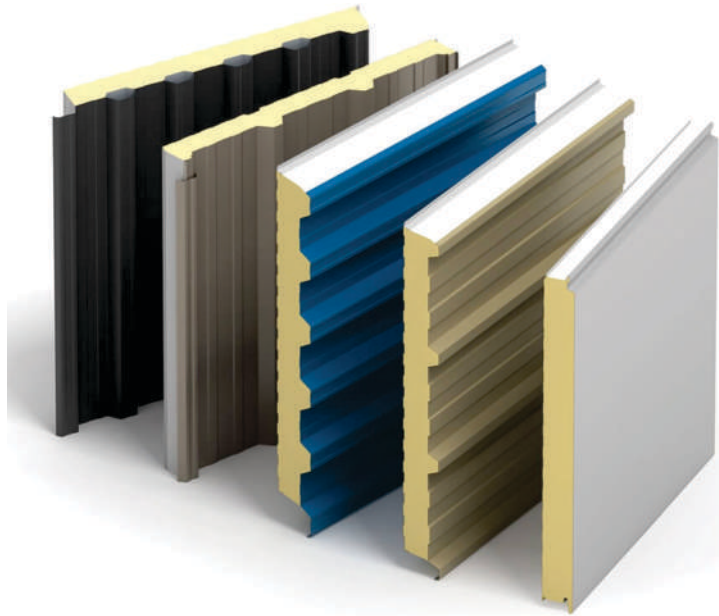

Durability

MOUNT PANELS

Polyurethane Foam (PUF) panels, also known as PUF sandwich panels, are an innovative building material renowned for their exceptional insulation capabilities. Comprising a core layer of Polyurethane Foam, flanked by durable metal sheets, these panels excel in thermal and acoustic insulation. Mount Panels are equipped with its own manufacturing unit for PUF sandwich panels. These panels find application in both wall and roofing.

Mount Panels have a state-of-the-art manufacturing facility to produce all range of panels ranging from 30mm to 250+mm. We are also equipped to produce Rockwool panels, Glass wool panels, EPS Panels, PIR Panels.

KEY FEATURES

of Panels include:

MOUNT LITE

MOUNT LITE Polycarbonate sheets are a versatile and popular building material known for their exceptional qualities. These transparent or colored sheets are manufactured from high-quality polycarbonate resin through an extrusion process.

It's very high impact resistance strength ensures that MOUNT LITE Polycarbonate sheets can be widely used for safety glazings and related applications. They can also be deployed in applications where they are subjected to high levels of vibrations and accidental impact. These include noise barriers along highways, visual & noise barriers on bridges and on security barriers. These Polycarbonate Sheets are 250 times stronger than glass and 25 times more impact resistant than acrylic sheets.

MOUNT LITE Polycarbonate Sheets can also be engineered to suit food grade applications and enhanced fire-retardant property in case of specific applications or requirements.

MOUNT ROOFING AND STRUCTURES PVT LTD is India's largest PEB, PUF panels and polycarbonate sheet manufacturer. Under MRSPL we're having 3 prominent brands which are very widely used in Steel building construction/roofing industry.

MOUNT PEB specializing in the design, fabrication, and installation of steel structures for various industrial, commercial, and residential applications. Our company offers cost-effective and time-efficient building solutions, utilizing advanced engineering and manufacturing techniques to create durable and customizable structures, with a commitment to sustainability and innovation, our company has established itself as a leader in the PEB industry, providing high-quality pre-engineered buildings tailored to meet the unique needs of its clients.

MOUNT PANELS is our another premium product specializing in the production of insulated panels designed for various construction applications with a focus on energy efficiency and thermal insulation, PUF Panels offers a wide range of high-quality building solutions, including wall and roof panels. Their products are engineered to provide exceptional temperature control and environmental sustainability making them an ideal choice for commercial, industrial and residential projects. PUF Panels commitment to innovation and environmentally friendly materials has established them as a trusted provider of insulation solutions in the construction industry

MOUNT LITE Polycarbonate sheets are transparent, durable, and versatile thermoplastic materials widely used in construction and manufacturing. Known for their exceptional impact resistance, clarity, and UV protection, these sheets offer a lightweight alternative to glass. Polycarbonate sheets find applications in roofing, skylights, greenhouse glazing, and safety shields. They provide excellent insulation properties and come in various thicknesses and configurations to meet diverse needs. Whether for safety, aesthetics, or energy efficiency, polycarbonate sheets have become a popular choice for a wide range of architectural and industrial uses.

MOUNT ROOFING AND STRUCTURES PVT LTD

Corporate Office :

SLR Complex, # 57,Kottigepalya, Magadi Main Road, Bangalore 560 091, **INDIA**

Manufacturing Units :

UNIT 1 : Plot No 34, Zone 2, Road No 23, 1st Phase Kora (HO) Vasanthanarasapura Industria Area, Tumkur District, 572 138.

UNIT 2 : Sy no 127/3 Machohalli Village, Bangalore North Dasanpura Hobli - 560 091.

UNIT 3 : Sy no 19/5, Devarahalli, Channarayanadurga Hobli, Korategere Taluk, Tumkur District, 572 129.
